The scholarships will be awarded on the basis of scholastic achievement, financial need, and good character.

Each scholarship which is available for use at Missouri University or Rolla will pay a sum equivalent to the current library, hospital, and incidental fees for two semesters. At present the value is \$135.00.

Southwest Missouri State College at Springfield will award an academic scholarship to one of the upper five members of the graduating class. The scholarship which covers tuition and student activity fees is usable for any three of the four college terms immediately following the student's graduation.

College and Community Offer Students Cultural Advantages

What educational and cultural advantages do Joplin Junior College and the community offer students outside of classroom work and organizations?

First of all, J.J.C. students have the opportunity to attend weekly assemblies. These assemblies are planned by a college student-faculty committee and are open to the public. Among the highlights on schedule this year were Leo Lania, a roving correspondent for World Nations Magazine, who spoke on "Today's World Problems;" K. A. MacKenzie, an experienced geologist, who demonstrated the "whys" of spectacular phenomena of our earth; and Dr. William J. Pinard, born in Africa, who delivered an enlightening talk on the importance of Africa to the world today.

The assembly programs have not only featured outstanding speakers but outstanding musicians as well. Concert violinist Robert Rudie presented a concert in which he used three violins including a Stradivarius. Opera tenor William McGrath sang before an attentive audience and afterward students were given a chance to interview him. The Frankel and Ryder team danced their way through a delightful and informative program in which they demonstrated the creative dance.

Mrs. Jay L. Wilder, Joplin's impresario, has presented many outstanding programs on her "Concert Series" this year featuring such personalities as Yma Sumac, Jose Greco, the Columbus Boy's Choir and Henry Scott, piano-comedian. Mrs. Wilder affords many students the opportunity to see these presentations free of charge by serving as ushers.

Mrs. Wilder also has charge of the Travel and Adventure Club to which anyone can belong. It features beautiful, colored motion pictures of interesting countries of the world narrated by globe-trotting expert professional photographers. Illustrative of 1954-55 offerings are Kjordis Kittel Parker, a native of Norway, who presented a wonderful travelogue on that country, and Colonel John Craig, official photographer for the government during the war and for the atomic experiments in the South Pacific, who narrated "Danger Is My Business."

Joplin Junior College affords district artists and enthusiasts an opportunity to view art exhibits not only by students but by contemporary painters from all over the country. These exhibits, distributed by such studios as the Guild of West Redding, Connecticut, arrive about every three weeks.

These few reminders suggest the many worthwhile programs some of us have seen this year. Furthermore, they show that J.J.C. and the community are aware of the need for cultural and educational advancement outside the classroom and that both are working more and more toward those ends.

Y.W.-Y.M. Groups Receive Thanks For W.U.S. Aid

Joplin Junior College
Joplin, Missouri
Dear Friends:

It was wonderful once again to receive such a notable gift to the World University Service this year. This letter is to acknowledge a check for \$50 sent to us through your Y.W.C.A. Treasurer.

It was a real thrill to me to have the opportunity to visit you all once again at the time of your drive and to see the ingenious ways in which you were raising your money. We are very proud of the manner in which the students and faculty members of Joplin Junior College are participating in the world program of the World University Service.

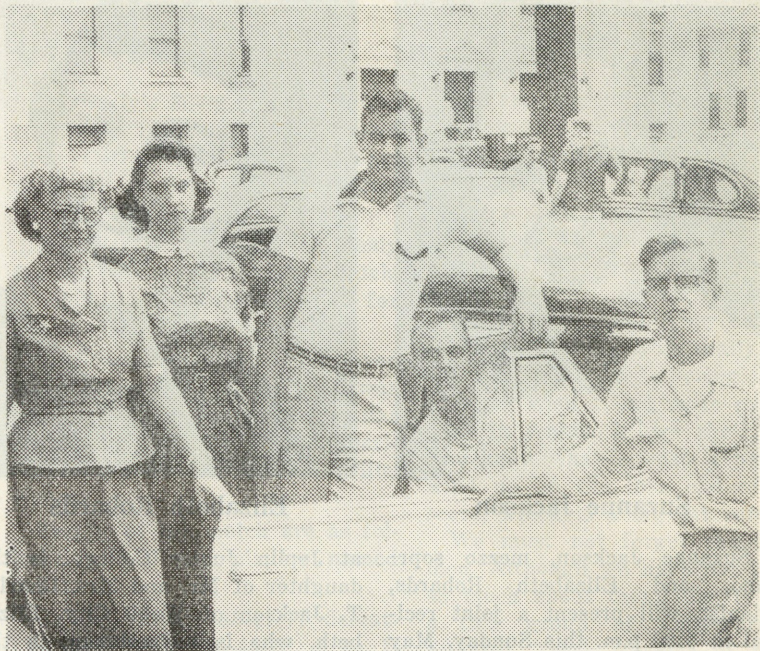

Once again your money will play an active role in helping to supply food, clothing, shelter, medical care and equipment, educational supplies, the handling of D P problems, and similar requirements of student life in less fortunate parts of the world. Your campus is registered on the international front throughout thirty-five nations, involving over seven hundred colleges and universities of this country as well.

I would like to remind you that the World University Service belongs to you and is your means of expressing your concern to the needs of others in foreign lands.

We are really proud of all the time and effort that was put into making this gift possible. I shall always remember the apples and the shoe shines when I think upon your campus in the years to come. You have done a fine job and we are exceedingly proud of you.

Sincerely,
Peyton Short,
Regional Secretary

Mrs. Keith Boore And William Brill To Teach in Joplin

Two alumni of Joplin Junior College were recently employed by the Joplin Board of Education for the 1955-56 school term. One was Mrs. Keith Boore (Kathleen McClanahan), a home economics major who has been teaching in Waynesville, where her husband is stationed at Fort Leonard Wood. When Kathleen was here, she was active in the Y.W.C.A., the Beta sorority, and the Teachers of Tomorrow.

William D. Brill, who graduated from the College in 1953, was the other former student employed May 3. Bill, who was prominent in Phi Theta Kappa and the Y.M.C.A. here, will graduate from the University of Missouri this year. He is a brother of Walter Brill, a sophomore.

Mr. Boore was also employed to teach in Joplin for the ensuing term.

Another third finger, left hand, has "the new look." Eloise Jackson is to be the bride of David Cooke. Eloise, who will graduate this spring, plans to teach this fall. David, a former J.J.C. student, is employed by Ozark Engineering. No date has been set for the wedding.

Merretts Praise Ozark Hospitality

Dear Mrs. Frazier,

... Our first thoughts, after settling down again, are for all the kindly people who helped to make our visit to the United States so happy...

We thoroughly enjoyed our visit with you and wish that it could have been of longer duration. As was the case wherever we went in Missouri, we felt that we were indeed among friends and I do not think that we have ever experienced such kindness and hospitality...

We expect to be pretty busy writing and broadcasting the story of our American travels but we both feel that anything which can be done to increase the friendship and understanding between your people and our people is well worth doing.

We have made up our minds that one visit to the United States is not enough - - and if we are able to come again, we shall again include Joplin.

Yours very sincerely,
(John Merrett)

Hillosopher's Corner

By Jackie Cox

Here in hillosopher's corner we always hate to see people leave, and most often those who are near and dear to us hate to leave. But there must be progress no matter what the feelings.

Often our friends never return. But we think back to pleasant moments. Thoughts go through our minds as to what our friends could be doing, where they are, and under what circumstances. Although we of hillosopher's corner don't believe in saying goodbye, we would like to say "So long" to the graduating class. We truly hope that you will look back upon us as your friends and upon the College as a pleasant sojourn of beautiful memories.

Sports Topics

By Jim Ellis

Quite a few rough-dodgers are shooting fine scores on the links. Keeping the scores low seems to be child's play for J.J.C. golfers. With the boys firing high 70's and low 80's maybe I can pick up a few pointers from them. Gee, I wonder what it would be like to break a 100.

The net squad isn't doing so bad either. Callahan and Gardner must know the rackets. The whole team is doing swell. They deserve the breaks for they've really been working hard at bettering their game. I wish I had more experience in tennis. I love the game. You know what I mean. I usually wind up on the love end of the score, which is a big fat zero.

We must not forget the track men. Although we have not heard so much about them, they're still a fine group of hard-working athletes. Track consists of many different sports, such as the dashes, the hurdles, broad and high jumps, shot put and pole-vault. There are many other types, too. It would be swell if more would go out for track. I would like to see Juco enter someone in each of the many track sports.

This about wraps up the sports package for the year and as I bid you, my readers, a fond adieu, might I remind you, athletics do not end with the school year. So have fun, take part in sports, and I'll see ya later.

Three Attend Kansas Meet

Three athletes journeyed to Independence, Kansas, April 20, to compete in a junior college track meet and the squad returned home with a tie for third and sixth places.

Richard Guppy tied for third in the high jump and Garry Church finished sixth in the 100-yard dash with a 10.5 performance. Jim Sullivan, who also made the trip, did not compete.
